

Hiring is the most important people function you have, and most of us are not as good at it as we think. Refocusing your resources on hiring better will have a higher return than almost any training program you can develop.

## ABOUT

My primary goal as a mathematician is to contribute to the improvement of the company's products and services by applying my expertise in mathematical analysis, designing models, and utilizing mathematical software to support system functions and provide bespoke mathematical solutions. Equipped with top-notch training, experience, excellent mathematical skills, as well as being a team player, I am confident that this goal can be achieved.
